

PrintPromotion training courses abroad for specialist teachers of the printing and paper converting industry

The fifth seminar for specialist teachers at a foreign venue was carried out in Indonesia at Politeknik Negeri Kreatif in Jakarta.

The fifth seminar for specialist teachers of the printing and paper industry at a venue outside Germany was carried out in Indonesia at Politeknik Negeri Kreatif from 19 to 21 November 2011.

The seminar at Politeknik Negeri Kreatif was attended by 32 participants.

Subjects dealt with were

- Digital workflow from data generation to print
- PDF creation and check
- Printing plate linearization and calibration
- Parameters and their specification for the printing process
- Standardization in printing (density, tone value increase, spreading)
- Make-ready of the printing press in accordance with defined process parameters
- Proofing and assessment of test formes in accordance with the standards of ISO 12647-2

The participants of the specialist teacher seminar in Indonesia came from a variety of institutions of education and training within Indonesia.

Eleven participants partook in an interview which is offered by PrintPromotion with the aim to assess whether and to which extent candidates are qualified for participation in the one-year specialist teacher course held in Germany.

For the selection of the next venues, universities and specialist schools in the target countries are permanently invited to apply for the organisation of the next seminar.
