**The fourth seminar for specialist teachers at a foreign venue was carried out in Russia at Moscow State University of Printing.**

### **Course for specialist teachers in Russia**

The fourth seminar for specialist teachers of the printing and paper industry at a venue outside Germany was carried out in Russia at Moscow State University of Printing from 1 to 3 November 2010.

The seminar at Moscow State University of Printing was attended by 37 participants.

Subjects dealt with were digital workflow, implementation, background and components of standardized print production according to ISO 12647-2/PSO and digital proof.

Special subjects for the prepress segment were control elements in prepress, PDF creation from Indesign, elimination of faults resulting from wrong settings, unintended changes of data as a result of transparency reduction, advantages of PDF direct export over PDF creation by PostScript and Distiller.

The press-related subjects included determination of target colour values, creation of characteristic curves of a printing press, adjustment of characteristic curve to defined standards, parameters in printing with regard to dot gain, grey balance and tone value spread.

The participants of the specialist teacher seminar in Moscow came from a variety of institutions of education and training.
